Geography game

Goal of the game: getting known the countries of the world

Age: 15-99 years

Members: 5-10

The game:

- the class is divided into groups of equal number of people, ideally, 3-5 people in a group.
- **First:** every group gets 15 little country cards.
    - one of the group members has to throw the dice and the group which throws the biggest number begins the game. They have to put down as much cards as they can. Then come the others.
- **Then** every group gets 10 little city cards.
    - The group which threw the smallest number previously, starts this round.
- **In the end** every group takes and answers 3 blue, green and rose cards.
- the roll of the **hourglass**: if a group can't answer until the sands run out, the other can answer the questions.

Score: 1 point for every right answer
